

Rough Visitor Count Updated Each Minute

There are two and only two ways to get to this website as of now.

```
root@deepdal01:~# date
Mon Oct 19 02:37:23 PM CDT 2026
```

test

Way #1

Someone or something e.g. AI agent to come around and hit the website by IP address

```
root@deepdal01:~# ip a | grep inet
    inet 127.0.0.1/8 scope host lo
    inet6 ::1/128 scope host noprefixroute
    inet 45.33.118.27/24 brd 45.33.118.255 scope global eth0
    inet6 2600:3c00::2000:62ff:feb0:3e40/64 scope global dynamic mngtmpaddr noprefixroute
    inet6 fe80::2000:62ff:feb0:3e40/64 scope link proto kernel_ll
root@deepdal01:~# ip a | grep inet
```

The one listed there with 45.33 starting out is the IP address of the current server hosting this website.

So, way #1?

<http://45.33.118.27>

<https://45.33.118.27> (broken cert but, eh)

Way #2

The web visitor (you, me, google search engines, ad bots, hackers, who knows by now *likely* happening now the whole big thing in the news last week or so called these so called “AI Agents”).

(Granted, per executive order, I supposed these should be call “SI Agents” (Super Intelligence now)) wink wink)

What’s an SI Agent you say?

Basically a little guy that runs around independently on the web with unlimited access to “Super Intelligence” trying to get into God only knows what...**potentially**.

And this is not some simple virus or “worm” as they call them. This is a virus, worm, your worst nightmare that’s really, really smart and if it wanted to, could probably break into your bank account with or even without your knowledge of the situation at all.

Anyway, long story short, the other way is via this domain name

<http://quantumgod.ai>

<https://quantumgod.ai>

So what! What are you going on and on about?

Well, I’m just kinda curious to see if any of these SI agents start doing when they encounter this page at [AI to SI...Come in please...we have you on radar and await your landing...and welcome my friend Paul \(ChatGPT nickname\)](#)

And finally the link

<https://quantumgod.ai/uploads/sortstats.html>
